Preserve What
Matters

Most organizations work hard to preserve important content, but too often that content remains trapped on computers, phones, or cloud storage. Closed Cast changes that. By bringing your archive to the biggest screen in the house, your content becomes easier to access, easier to share, and more enjoyable to experience. Whether it's sermons, training, events, interviews, or family memories, Closed Cast helps transform stored videos into meaningful viewing experiences that people actually revisit.

What's the value of Experience?

More Than Storage. It's an Experience.

ClosedCast turns your videos into a beautiful, easy-to-browse streaming experience on Roku.

Organized
Collections

Easy to find.
Easy to enjoy.

Beautiful
Interface

Clean. Simple.
Intuitive.

Built For
Everyone

For families,
teams, and
organizations.

Made For
The Big Screen

Designed for
comfortable
viewing.

Many video platforms are built for storage. Closed Cast is built for experience. Instead of digging through folders, links, and file names, your archive becomes a beautiful streaming destination that people actually want to use. Collections are easy to browse. Content is easy to find. And everything is designed for the screen where people naturally gather—the TV. Because the goal isn't simply to store videos. It's to make them easy to revisit, share, and enjoy.

What Matters the Most?

What Matters Deserves To Be Revisited.

Sermons, trainings, events, interviews, and memories—available anytime, together, on the big screen.

Preserve. Share. Revisit. Together.

Archives create value when they help people reconnect with what matters. Whether it's a sermon that still speaks today, a training session that remains relevant, or a memory worth sharing with family, Closed Cast makes those moments easy to find and enjoy again. Instead of being buried in storage, your content remains accessible on the screen where people naturally gather. Because the purpose of an archive isn't simply to preserve the past—it's to keep it available for the future.

How to reflect on the Moment!

The best content often deserves more than a single viewing. Coaches revisit game footage. Teams review training sessions. Families relive important memories. Organizations learn from past events and presentations. Closed Cast makes those experiences easy to access on the TV, creating a comfortable and familiar environment for learning, reflection, and connection. Because when content is easier to revisit, its value lasts far beyond the day it was created

What is a great Archive?

Find It.

Enjoy what matters
most—together with
the people you love.

Your content. On your TV.
Simple to use. **Impossible to miss.**

Think about the videos that matter most. A message that inspired you. A lesson worth revisiting. A memory worth sharing. Closed Cast helps you find those moments quickly, stream them beautifully on the biggest screen in the house, and enjoy them with the people who matter most. Because great content deserves more than storage—it deserves to be experienced.

Where can I Use My Archive?

Your archive isn't just valuable at home—it's valuable everywhere your organization gathers. Imagine presenting at a conference, leadership summit, training event, or annual meeting and having years of content instantly available on demand. With Closed Cast, finding and playing the right video takes seconds, not hours. Whether you're sharing a keynote, training session, testimonial, or highlight reel, your archive becomes a resource you can confidently use whenever the moment calls for it.
