

Why Choose Closed Cast?

THE POWER OF PRESERVATION

Why Do People Choose ClosedCast?

People don't buy video hosting.
They buy confidence that what matters won't be lost.

ClosedCast helps organizations preserve, organize, and stream the content that matters most—so it remains accessible today and for generations to come.

Preserve

Protect what matters most.

Organize

Find it easily.
Keep it structured.

Stream

Watch anywhere,
anytime.

Share with Purpose

Give access to the
right people.

People don't choose Closed Cast because they need another video platform. They choose Closed Cast because they care about what happens to their content over time. Sermons, training, events, interviews, and family memories all represent something valuable. Closed Cast helps organizations preserve, organize, and stream that content so it remains accessible, meaningful, and available for future generations. Because what matters most shouldn't be left to chance.

What you preserve today can inspire tomorrow.

ClosedCast

What is the Archive Problem?

THE PROBLEM

What Happens When Nobody Can Find Anything?

When content is scattered across multiple platforms, drives, and accounts, it becomes virtually impossible to find, manage, and share.

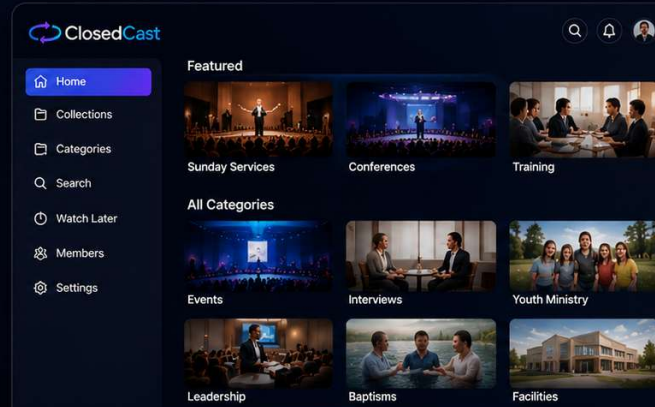

Valuable content. No clear place.
A risk to your history and your future.

THE OUTCOME

Turn Chaos Into Clarity.

ClosedCast brings everything together in one organized, searchable archive—easy to find, easy to share, built to last.

★ One archive. Everything in its place. **Ready today. Valuable forever.**

This is what we call the Archive Problem. Most organizations don't lose their content overnight. Instead, it becomes scattered across YouTube channels, cloud drives, old hard drives, forgotten accounts, and broken links. The videos still exist—but finding them, organizing them, and sharing them becomes increasingly difficult. Over time, valuable content turns into storage instead of experience. Closed Cast solves the Archive Problem by bringing everything together into one organized, searchable streaming archive that remains accessible and valuable for years to come

How can I access my Archives?

THE OUTCOME

Access What Matters. Anywhere. Anytime.

Your content should be easy to reach wherever life happens.

ClosedCast brings your entire archive to every screen—TVs, phones, tablets, and computers—so the right content is always within reach.

One archive. Every screen.

On your TV
Big moments deserve the big screen.

On your phone
Watch, share, and stay connected on the go.

On your tablet
Perfect for groups and gatherings.

On your computer
Manage, organize, and find content with ease.

Consistent experience across every device.

Always up to date. Always in sync.

Share with confidence. Wherever they are.

Secure access. For the right people.

One of the most valuable outcomes of a well-organized archive is accessibility. Content only creates value when people can actually find and use it. ClosedCast makes your entire archive available across TVs, phones, tablets, and computers, so the right content is always within reach. Whether someone is revisiting a sermon, reviewing training, watching an event, or sharing a family memory, your archive remains accessible wherever life happens. One archive. Every screen. Anytime it's needed

How to build value with Closed Cast?

THE OUTCOME

What If Your Archive Became More Valuable Every Year?

Your content isn't just stored.
It compounds in value over time.

Every sermon, training, interview, event, and memory adds another chapter to your story. Over time, your archive becomes a living library that grows richer, deeper, and more impactful with every passing year.

The more you add today,
the **more valuable it becomes tomorrow.**

Builds Depth

More content.
More context.
More understanding.

Expands Impact

Reach more people
with timeless
content.

Increases Legacy

Future generations
benefit from what
you preserve today.

Strengthens Trust

A comprehensive
archive reflects
credibility and care.

YOUR ARCHIVE. GROWING IN VALUE.

Your archive doesn't have an expiration date. **Its value only grows.**

Most content becomes old. Archives become valuable. Every video you preserve adds another layer of knowledge, context, and history to your organization. As your archive grows, it becomes easier to learn from the past, share meaningful experiences, and build upon what came before. Closed Cast helps you create an archive that doesn't fade with time—it becomes more useful, more trusted, and more impactful every year. Because the value of an archive isn't measured by what it stores, but by what it continues to provide.

Why Do Stories Deserve A Future?

THE OUTCOME

More Than a Platform. A Partner in Your Mission.

ClosedCast is built for organizations that care about their message, their people, and their future.

We combine powerful technology with purpose-driven support to help you preserve what matters, reach more people, and create lasting impact.

WE HELP YOU ACHIEVE

“Technology changes.
Platforms come and go.
Your mission lasts forever.”

Your mission is unique. Your archive should be too.

We'll help you build an archive that reflects who you are and the impact you want to make.

“We succeed when **you** do.
Your impact is our purpose.”

More impact.
Stronger communities.
A better future—together.

People come and go. Leaders retire. Staff changes. Technology evolves. But the knowledge, experiences, and stories that shaped your organization shouldn't disappear with them. One of the most valuable outcomes of a well-managed archive is continuity. Closed Cast helps preserve institutional memory by keeping important content organized, accessible, and available long into the future. Because your mission may span generations, and the content that supports it should too!

“You have a mission. We have **the technology and the heart** to help you achieve it.”

ClosedCast. Built for today.
Preserved for tomorrow. **Impacting forever.**

Why You Should Know The Risk?

Data Gets Lost. Archives Protect What Matters.

Real-world data shows how easily valuable content can disappear.
ClosedCast helps you preserve it—securely, reliably, and for the long term.

THE RISKS ARE REAL

70%+

of users have experienced data loss at least once.

Data loss can happen to anyone, at any time.

Source: Handy Recovery 2023 Data Loss Survey

74%

of people have accidentally deleted important data.

Human error is one of the leading causes of data loss.

Source: Backblaze 2023 Data Backup Survey

1.57%

annualized hard drive failure rate.

Even in professional data centers, drives fail every year.

Source: Backblaze 2024 Drive Stats Report

31%

of smartphone owners damaged their phone in the past year.

That's ~78 million people.

Source: Allstate 2023 Phone Protection Report

\$149B

spent on smartphone repairs and replacements since the smartphone era began.

The Solution: A **Secure, Reliable** Archive You Can Count On.

ClosedCast protects your content against loss, failure, and time—so your mission can continue for years and generations.

Secure by Design

Enterprise-grade security, encryption, and compliance keep your content safe and private.

Redundant Backups

Multiple layers of backups across reliable infrastructure protect against drive failures and outages.

Always Accessible

Stream on any device, anytime, from anywhere. Your content is always available when you need it.

Built for the Long Term

Scalable and future-proof platform designed to preserve your content for decades to come.

Support You Can Trust

Real people. Real support. We're with you every step of the way.

Don't let your content become a statistic.

Protect your legacy. Strengthen your mission. Build with ClosedCast.

The Archive Problem isn't theoretical. Every year, valuable content is lost through device failures, accidental deletion, forgotten accounts, and changing technology. The question isn't whether these risks exist. The question is whether your most important videos are protected from them. Closed Cast gives organizations a permanent streaming home where content remains organized, accessible, and preserved over time. Because what matters most deserves more than storage. It deserves a future.

How to Turn Content Into Impact?

THE OUTCOME

One Platform. Every Outcome.

ClosedCast brings everything together so your mission can move forward.

From capture to preservation, from organization to access, ClosedCast is the all-in-one streaming archive built to help you grow your impact and protect your legacy.

One Platform. Limitless Impact.

- ✓ Save time with intuitive tools that make it easy.
- ✓ Increase reach with content people can find and enjoy.
- ✓ Strengthen ministry, mission, and community.
- ✓ Create a legacy that continues long into the future.

 Built for today.
Preserved for tomorrow.
Impacting forever.

EVERYTHING YOU NEED. ALL IN ONE PLACE.

Built for Organizations That Make a Difference.

Churches
Share your message.
Strengthen your community.

Schools & Universities
Educate. Inspire.
Preserve knowledge.

Ministries & Nonprofits
Expand your reach.
Multiply your impact.

Businesses
Train teams. Share ideas.
Drive results.

Associations
Serve members.
Grow your mission.

 ClosedCast isn't just a platform. It's a partner in your **mission**, your **impact**, and your **legacy**.

Every video represents a moment, a lesson, a story, or an experience worth preserving. But the real value comes when those moments remain accessible and continue serving people over time. ClosedCast brings everything together into one archive—organized, searchable, and available across every screen. Because the goal isn't simply to store content. It's to extend its impact, strengthen your mission, and ensure what matters today remains meaningful tomorrow.
